

## **Immunization Requirements for Clinical:**

### **75-Hour Nurse Aide Training Advanced Nurse Aide Training**

You must submit proof of your immunity to Signature Healthcare by the 3<sup>rd</sup> day of class. We have provided an 'Immunization Status Form' for you to use (requires a physician's signature) or you may submit approved copies of your immunization records to the office.

#### **75-Hour Nurse Aide Training:**

Tuberculin Test (TB) – Must provide documentation of PPD Skin Test by Mantoux. Test must be within 12 months of starting the program. Copy of chest X-ray and TB questionnaire must be completed for all positive TB skin tests.

#### **Advanced Nurse Aide Training:**

Physical Examination: Must provide a physical examination signed by a doctor within the last 4 years. A form is provided in this packet that you can take to your doctor if you don't already have one.

Measles (Rubeola) - Must provide documentation of 2 injections at least one month apart with the second dose after age 15 months or sufficient titer levels. If you were born before 1/1/1957 you do not need proof of immunity.

Mumps – Must provide documentation of 2 injections or sufficient titer levels. If you were born before 1/1/1957 you do not need proof of immunity.

Rubella - Must provide documentation of 2 injections or sufficient titer levels. If you were born before 1/1/1957 you do not need proof of immunity.

Tuberculin Test (TB) – Must provide documentation of PPD Skin Test by Mantoux. Test must be within 12 months of starting the program. Copy of chest X-ray and TB questionnaire must be completed for all positive TB skin tests.

Chicken Pox (Varicella) – Must be able to provide reliable history of the disease. If unreliable or unknown of disease (therefore potentially susceptible) must have sufficient titer or immunization required (unless medical waiver).

Seasonal Flu Shot – The majority of our clinical locations will require you to wear a mask throughout clinical if you did not receive the flu shot this year. This is not required, but recommended.

Hepatitis B – Not required or offered to the student. Student will receive a Fact Sheet from the CDC. If student does not have a record of the 3 series vaccination record or provide sufficient titer levels, the student must sign Hepatitis B waiver.
